## LOCAL NEWS.

Taylor's specialties! Hoffman House cigars and Noble whiskeys.

Dr. J. Q. Dunlap was here from Tonto yesterday with a load of fruit.

Bartolo Bellizzi came down from Payson Wednesday. Abundant rains have fallen there.

If you want a suit of clothes, ready made or made to order, go to G. S. Van Wagenen's.

Henry Armer, P. Bacon and A. J. Henderson, of Upper Salt River Valley, were visitors to Globe this week.

Bob Samuels, of Pleasant Valley, was in Globe the forepart of the week. He said the rains had been very light in the valley.

C. B. and Aaron Edwards, and Melville Frush went up on the mountain Friday to spend a few days in the vicinity of Kellner's mill.

Joseph Redman took his wife to California on Sunday last, hoping that the change would restore her health, which has been very poor of late.

Dr. J. H. Chase, Morris Klein and James E. Whelan who have been enjoying an outing on the summit of Final mountain, returned to town yesterday.

Geo. F. Wilson and J. H. McKie will leave Globe on Monday for San Francisco, where they expect to locate. They will be missed by their many friends here.

Mr. and Mrs. Jas. P. Patton entertained a few friends on Tuesday evening, in honor of Mr. Patton's 29th birthday. The occasion will long be remembered pleasantly by those present.

The rainfall in the northern part of Gila county has been continuous and heavy. At Pine rain fell daily from the 10th to the 23d, and the total precipitation is estimated to have been four inches.

A picnic party composed of Mr. and Mrs. M. W. Bremen, Dr. and Mrs. T. S. Collins, Miss Ida Bremen and a number of her girl friends, spent Thursday in the cool and delightful environs of Bremen's mill.

E. F. Kellner and family, when last heard from were in San Francisco, where the children were to be left at school. Mr. and Mrs. Kellner were contemplating a visit to the World's Fair.

Having decided to take a few weeks vacation, I wish to close out summer goods. Therefore, I am offering bargains in new, fashionable, millinery and fancy goods until August 1st.

Mrs. A. W. NEWTON.

N. H. Price and David Devore have raised splendid melons, potatoes, cabbages and other garden truck this season on their fertile ranches at Wheatfields. We have never eaten finer potatoes, and their other products are correspondingly good.

It is said Mike Ohl contemplates the purchase of the cattle and ranch property of P. Brewer, in this Ariz. It is a most desirable piece of property, and as Mike desires to return to his first love—the cattle business—he could not do better.—Willcox Stockman.

C. E. Taylor, dealer in fine wines and liquors, California port, claret, White and Eclipse extra dry champagne, imported cognac, gin, Jamaica rum, Scotch whiskey, Duff, Gordon & W. & A. Gilbey's sherry, and Pommery Sec. Dublin Stout, Dublin ginger ale, apollinaris, etc., etc.

Sam Richmond, who was in town on Thursday, informed us that the rainfall has been copious in the immediate vicinity of his camp, at the point of Apache mountain, ten miles northwest of Globe. Grass in places is six inches high. He says, however, that the range has been greatly injured by the drought and overstocking, and will never be so good as formerly.

Mon's nailed boots, brogans, coarse shoes, fine shoes, bass ball shoes, dancing shoes and slippers, at G. S. Van Wagenen's.

Andre Maurel is looked upon as a public benefactor during the hot season when ripe fruits are so grateful to the palate. He has melons and peaches in abundance, of excellent quality, and moderate in price. Mr. Maurel has opened a fruit store at the southern approach of the bridge, where cool luscious melons and other fruit, can be had at all times.

C. E. Taylor, sole agent in Globe for Noble whiskey.

## CATTLE AND GOLD IN NORTHERN GILA.

U. Z. Curtis arrived from Payson Tuesday, on his way to the railroad to meet his wife, who is returning from a visit in California. He spoke of the improved prospect in the northern part of Gila county. Matters generally have assumed a more encouraging aspect. Good rains have made the heart of the stockman glad, and buyers recently through that section were offering better prices for beef cattle. There is a decided stir in gold mining. The low price of cattle and heavy losses sustained in stock during the past two seasons, caused many persons to turn their attention to prospecting, with the result of several important gold finds about Payson and on Rye creek. The most valuable discovery up to date is on a claim owned by L. L. Looney, Wm. Murphy and Frank Bissig, situated four miles west of Payson. A shaft was sunk on the claim and at a depth of 60 feet, Mr. Curtis states they have two feet of quartz carrying \$150 of gold per ton. The Lachawanna mine, the most noted in the Payson district is due to a disagreement among the owners. Work is soon to be resumed on the Zulu mine, near the head of Rye creek, owned by Sam Hill and Jim Samuels, or Prescott. It is a fairly well developed mine, having a double compartment shaft 100 feet deep. Our informant considers the Zulu a valuable property, showing a good sized vein at a depth of 160 feet, assaying \$300 in gold. Considerable timbering will be necessary before mining can be resumed in the Zulu. Mr. Curtis has a very promising prospect on Rye a few miles east of the store. He has sunk 60 feet and at that depth has an 18 inch vein of ore going \$100 in gold. There are dozens of claims in the Payson and Rye country, showing more or less gold, and Mr. Curtis is of the opinion that it is a most promising field for the prospector.

Cy. Blevins received a letter from Ed. Hill, a few days since, stating that he was still in jail in Colfax, Washington, and his trial has been set for December 12th. Hill, indicted for murder in Whitman county, Wash., was twice captured in the Sierra Anchas mountains, Gila county, the first time by Deputy Sheriff Webb of Maricopa county, Ariz., and B. F. Crawford of Tonto, who took him to Phoenix, where he broke jail and returned to the Sierra Anchas. He was again captured by Cy. Blevins, brought to Globe and subsequently taken to Yuma by Sheriff Thompson and Blevins, and delivered to an officer from Colfax, Wash. Two of Hill's accomplices in the crime were tried and convicted of manslaughter.

We learn from the Las Vegas Optic that Lieut. W. A. Glasford and family have returned from Paris to Washington City. Lieut. Glasford was stationed at Paris for a year as military attaché of the French legation. He is very kindly remembered in Arizona. He was for a time stationed at San Carlos as Signal Service Officer, and was subsequently placed in charge of the weather service of the Department of Arizona. It was mainly through his efforts that the meteorological reports from Arizona were made comprehensive and of value. His very useful services were recognized by the Department at Washington, and won him promotion. The Lieutenant's friends in the Southwest are always pleased to hear of his success.

The effect of the closing down of the silver mines is noticeable even in so remote a district as Globe by the arrival, almost daily, of men hunting work. We want all such to know that Globe is almost as poor a place to seek employment as dozens of other camps in Arizona. In fact, the exigency of the times has caused an exodus of good men from Globe. The Old Dominion Copper Co., about the only employer of labor here, has all the men on the payroll that they require.

Henry Bopp was in from Quartzite Wednesday. Chas. Ruckelshausen and he have a fine showing in their silver mine, and have taken out and sacked a considerable quantity of ore which they will probably have worked here. The present demoralization of silver does not encourage further prosecution of work on silver properties, and it is doubtful whether Messrs. Ruckelshausen and Bopp will do any more work for the present on their claim.

E. J. Edwards returned from Upper Salt river valley on Wednesday. The Hudson reservoir survey party was working on Tonto creek. Until the survey is completed nothing will be done toward acquiring the lands that will lie within the basin. Mr. Edwards says it will be the safest reservoir in the world, as in the event of the dam breaking, the water could not flow through the box canyon fast enough to do serious damage to life and property below.

N. S. Berry, World's Fair commissioner for Gila county, sent a magnificent silver nugget from Richmond Basin, to be added to the Gila county exhibit. T. R. Sorin, in charge of the Arizona exhibit at the Fair, in acknowledging the receipt of the specimen says, "It's a bird." The nugget is almost pure silver and weighs 20 pounds. It is one of a large number of nuggets found at Richmond Basin by Leroy Ikenberry and partners.

LOST—July 5th, on the public road somewhere between Globe and Tonto, a corduroy coat containing two memoranda books with my name in them. The finder will be suitably rewarded for the return of the articles if left at the Belt office. CHAS. COQUOT.

All kinds of wines and liquors, tobacco and cigars, at G. S. Van Wagenen's.

Remember, Tuesday, August 1st, PAPER BAG SOCIAL at M. E. Church, 7:30 p. m. Fine music entertainment.

C. C. Philayson retitled on Wednesday, after an absence of several months in the North and East. He has been in Denver Chicago and other cities, and in several mining camps, and found dullness everywhere. He thinks Globe is a good place to come back to.

ROOMS TO RENT—by the day, week or month—large, well furnished, cool and comfortable, centrally located on Oak street, one block west of the Court House. Terms reasonable. Apply to owner.

Mrs. C. R. FISKE.

## THE SUPERSTITION GOLD DISCOVERY.

We are indebted to Dr. Alex. Trippe for a conservative opinion of the Superstition gold mines; He states that what has been done, outside of the four or five claims bought by the Colorado party, is limited to prospecting and that mostly near the surface. That work has resulted in the finding, at several places, of gold ore of more than average richness. It is a quartz conglomerate carrying free gold. Although a few small shafts have been sunk, no positive lode or vein has yet been struck, which may be called a permanent vein.

The Haas mines, now owned by Mr. Hall and others, have been worked somewhat extensively, and have very rich ore which is now stoped out and shipped in sacks to Denver, Colo. Some of the ore taken out is exceedingly rich and there is a large amount in sight between porphyritic and granitic walls.

Float ore is found in many places and specimens are often exceptionally rich in the precious metal. There can be no doubt that auriferous quartz ledges will be discovered before long, since the amount of prospecting work is constantly increasing, and in proportion, the prospected area. At present there are nearly 300 people in the hills; a townsite has been located, and several stores and restaurants have been opened. The surrounding hills, notably near the old McDowell camp, also bear rich gold and silver ores.

Dr. Chase, the dentist, will leave Globe within the next few weeks on a trip to different parts of the Territory. Those wishing first class work at Eastern prices must call soon. Remember, Eastern prices prevail until my departure.
